

TOCHI KALU

San Antonio, Texas, 78256 | 737 - 334 - 7375 | 6Tochi.kalu@gmail.com | <https://www.tochikalu.com/>

EDUCATION

The University of Texas at San Antonio

Bachelor of Science, Major: Computer Science, Cumulative GPA: 3.8

San Antonio, Tx

December 2028

Relevant Coursework: Calculus I & II, Data Structures and Algorithms, Object- Oriented Programming, Discrete Mathematics.

TECHNICAL SKILLS

Languages: Python, Java, HTML/CSS, C, SQL

Tools & Technologies: Git, GitHub, React, Next.js, OpenAI API, Tailwind CSS, REST APIs, Command Line, JSON, Linux/Unix, HTTP Protocols, SQL

Concepts: Data Structures & Algorithms, Object-Oriented Design, Time & Space Complexity Analysis, Client-Server Architecture, RESTful APIs

EXPERIENCE

RowdyHacks, *Logistics Organizer*, UTSA Hackathon

April 2026 – Nov 2026

- Collaborating with organizing team to plan and execute a multi-day hackathon for **300+** participants
- Coordinating logistics including registration, scheduling, and participant support.

National Society of Black Engineers, *Membership Chair*, UTSA

May 2026 - Present

- Facilitating productive mentor-mentee relations between **100+** UTSA alumni and current students.
- Maintaining alumni activity with monthly newsletters and **5+** events per semester, while increasing engagement from previous years by **200%**.
- Coordinate with the **16** other executive board members for the tasks in weekly meetings.

Software Development Instructor

June 2025 - July 2025

Code2College, Austin, Tx

- Designed and delivered structured programming curriculum covering Python fundamentals, data structures, and algorithmic problem-solving.
- **25+** students mentored in debugging complex logic errors and implementing modular, maintainable code.
- Reviewed student code and provided feedback on efficiency, readability, and software design principles.

PROJECTS

Personal Portfolio Website | *Next.js, React, TypeScript, Tailwind CSS*

August 2026 - Present

- Engineered and deployed a responsive personal portfolio from scratch using Next.js, React, TypeScript, and Tailwind CSS to showcase software engineering projects, experience, and technical skills.
- Built reusable UI components and interactive project sections to present technical work across AI, hardware, healthcare technology, and full-stack development.

TochiBot | *Python, OpenAI API, REST APIs, JSON, OOP*

September 2025 - Present

- Engineered a context-aware AI assistant used by **30 active users**, integrating **4+ external REST APIs** for LLM-powered conversation, real-time weather, web search, and task automation.
- Architected a modular Python backend using **object-oriented programming (OOP)** and separation of concerns to process and validate **100+ JSON API responses per session**, with robust handling for network failures, malformed data, and API errors.
- Developed persistent conversational memory and user-state management across **50+ simulated multi-turn interactions**, enabling the assistant to retain relevant context beyond individual prompts and provide personalized responses.
- Built an extensible action system for productivity and wellness workflows, including tasks, reminders, **1–5 mood check-ins**, and user-approved medication, appointment, and refill reminders.

LEADERSHIP & ACTIVITIES

African Student Association, *Member*, UTSA

January 2025 - Present

- Contributing to cultural and community-building events that promote student engagement and inclusivity.
